EXPERIENCE

Kazam EV Tech Pvt Ltd

Bengaluru | May 2025 – Present

Associate Product Manager

B2C & B2B2C

- Owned consumer app 0→1; drove 140% MAU growth in 3 months through rapid iteration on onboarding, discovery, and session flows
- Redesigned onboarding funnel using cohort analysis and 15+ user interviews; cut drop-off by 35% and improved D7 retention
- Launched Refer & Earn growth loop driving 50% MAU lift and 65% transaction volume growth; led cross-functional team of 9 across 4 on-schedule releases
- Shipped UPI-based EV charging payment flow targeting <20s transaction time, reducing checkout friction for first-time users

B2B & Platform

- Defined and shipped GenAI-powered CMS Agent (LLM + RAG) — reduced support ticket volume by 35% and resolution time by 28%
- Architected BBPS integration and post-paid/split settlement flows; accelerated settlement cycles by 15%
- Launched corporate wallet for fleet charging + subscription/coupon system; cut admin overhead by ~40%, boosted repeat usage by 20%
- Piloted dynamic time-based tariffing with enterprise clients, improving revenue per charger by 18%

FuelBuddy

Gurugram | Aug 2024 – Mar 2025

Associate Product Manager

- Owned B2B order management and shift scheduling platforms end-to-end; improved operational efficiency by 28%, cut support tickets by 22%
- Ran 20+ merchant discovery interviews; redesigned onboarding UX lifting completion rate by 35%
- Executed A/B tests across acquisition and activation (GA4, Mixpanel, SQL); drove 17% engagement uplift — 92% sprint delivery rate
- Revamped merchant dashboard, cutting task completion time by 45%; scaled platform to 3 new cities

PROJECTS

Mufasa — AI-Native Fitness & Lifestyle PWA

[↗ Link](#)

Solo PM & Builder

- Identified gap in Indian fitness market; shipped full-stack PWA where Gemini 2.0 Flash generates personalised plans across training, nutrition & grocery spend — branching on 10+ user signals at signup
- Designed end-to-end product and custom design system; built real-time macro adaptation, PR tracking with celebratory UX, and cross-device sync via Supabase
- Solo 0→1 using AI-native development (React, TypeScript, Supabase, Gemini API) — proof of PM-led AI product execution without an engineering team

SKILLS

Product: Roadmapping, PRD Writing, A/B Testing, Funnel Analysis, Growth Loops, Onboarding Optimisation, OKRs, User Research

AI/ML: Gemini API, LLM Product Design, RAG Systems, Prompt Engineering, AI-Native Development

Analytics & Tools: SQL, GA4, Mixpanel, GTM, Power BI, Jira, Figma

Engineering: Python, PostgreSQL, React, TypeScript, Git, Supabase

EDUCATION

Madan Mohan Malaviya University of Technology, Gorakhpur

Dec 2020 – Aug 2024

B.Tech, Electrical Engineering · CGPA: 7.30

Spring Dale College, Lucknow

Apr 2017 – May 2019

Indian School Certificate (ISC) · Score: 90.5%
